About me

I am a 3rd semester Multimedia Design student currently studying at Syddansk Erhvervsakademi, heading toward a future in IT - specifically Web Development, which I plan to continue studying after graduation. Last year I learned HTML, CSS, Vue - this semester I'm deep in PHP, WordPress and JavaScript. Design is also very much a part of who I am - I enjoy working on branding, visuals and UX/UI, and I think about usability every time I look at a website. I'm a curious person who wishes to learn from professionals in the field. I'm social and easy-going, always happy to collaborate and pick up new things along the way.

Education

Syddansk Erhvervsakademi	2025 - NOW
Birzai "Sun" gymnasium	2021 - 2025

Experience

Student tutor | Syddansk Erhvervsakademi

Planning and coordinating team-building activities
